FACULTY

Andrea Ciavattini is Full Professor of Obstetrics and Gynecology at the Università Politecnica delle Marche in Ancona, Italy. He is President of the Italian Society of Colposcopy and Cervico-Vaginal Pathology (SICPCV) and has extensive experience in the clinical and academic coordination of HPV-related disease management and lower genital tract pathology. Prof. Ciavattini has led and supervised numerous research activities and collaborative projects in the field of cervical cancer prevention and colposcopy. His work has contributed to the development, dissemination, and implementation of national strategies and guidelines for the management of HPV-related lesions.

Giovanni Delli Carpini is a gynecologist and clinical researcher at the Università Politecnica delle Marche in Ancona, Italy. His clinical and academic activity focuses on colposcopy and cervical cancer prevention, with particular interest in HPV-related disease and integrated, risk-based management across multiple anatomical sites. He is actively involved in research and teaching in the field of lower genital tract pathology. Dr Delli Carpini is a member of the Scientific Committee of the Italian Society of Colposcopy and Cervico-Vaginal Pathology (SICPCV) and has contributed to the development of national guidelines on colposcopy and the management of multidistrict HPV-associated lesions.

Eleonora Petra Preti is a gynecologist and Senior Deputy Director at the IEO – European Institute of Oncology, Milan, Italy. Her clinical activity focuses on HPV-related diseases, including diagnosis and treatment, with particular expertise in laser-based therapies. She has a specific clinical and research interest in vulvar pathology. She serves as Councillor of the Italian Society of Colposcopy and Cervico-Vaginal Pathology (SICPCV) and Councillor of the International Society for the Study of Vulvovaginal Disease (ISSVD).

Barbara Gardella is Associate Professor of Obstetrics and Gynecology at the University of Study of Pavia, Italy. Her clinical activity is focused on women's health, particularly in HPV related diseases and vulvovaginal infection. She is actively involved in research on vaginal immunity and genital infection. She also mentors young clinicians and researchers, by innovative training programs and academic collaboration in lower genital tract pathology's field. She is vice-President of the Italian Society of Colposcopy and Cervico-Vaginal Pathology (SICPCV) and she supervised the development of national guidelines on colposcopy and management of multidistrict HPV-associated lesions.
